

Taiwan ICM 2022 Travel Grant

The 2022 International Congress of Mathematicians (ICM) is to be held in Saint Petersburg, Russia, from July 6 to July 14, 2022. To encourage and support early-career mathematicians to participate in this activity, we establish the Taiwan ICM 2022 Travel Grant (TTG) to supplement the Kovalevskaya Grant created by the Local Organizing Committee (LOC) of ICM 2022. For the awardees of the Kovalevskaya Grant, the TTG will secure travel expenses between Taiwan and Saint Petersburg, while the LOC of ICM 2022 will arrange for their visa-free entry to Russia, waive their registration fees, and provide accommodation in St. Petersburg for the duration of the congress. In addition, lunches for the duration of the conference, the welcome reception, the gala dinner, transfers between accommodation and congress venue and during cultural programs will be paid for by the LOC. The Kovalevskaya Grant program provides local support for up to 1000 early-career participants from developed countries. It is expected to award around 10 from Taiwan subject to qualification.

The TTG program is administered by The Mathematics Society of Republic of China (Taiwan) through cooperation with the National Center of Theoretical Sciences, Mathematics Division, Institute of Mathematics, Academia Sinica, and the Ministry of Science and Technology¹. **Applicants must reside in Taiwan.**

Eligibility

- Graduate students, postdoctoral fellows who are **Taiwanese citizens**, and faculty who have received their **doctoral degrees no earlier than 2011** are eligible to apply for the TTG.
- Applicants must have registered for the ICM at the time of application.
- Applicants must study or be employed in Taiwanese institutions.

Applications

1. **Most recent CV.** The curriculum vitae should include the following information: Education and training (including institutions, departments, degrees earned and dates); history of employments (including all academic or professional appointments, starting with the current appointment); a list of publications.
2. **Statement of current research.** The document should be limited to five pages.

¹ Any form of reimbursement provided by the Taiwan ICM 2022 Travel Grant is subject to restrictions and regulations of the Ministry of Science and Technology.

3. **Letters of recommendations.** Graduate students and postdoctoral fellows are required to submit two letters of recommendation.
4. **The ICM registration reference number** called the “ICM22 number”.
5. All materials must be prepared in the electronic formats and sent to tms2@math.ntu.edu.tw by September 30, 2021.

Selection Procedure

Taiwan ICM 2022 Travel Grant committee will review all applications and select the awardees based on scientific merits and the potential of the applicants.

The committee will complete its selection process by October 2021, and send a list of recommended recipients of the Kovalevskaya Grant to the LOC of ICM 2022. The final announcement of awardees will be made after confirmation with the LOC.

More information about the ICM 2022 and the Kovalevskaya grants can be found in (1) <https://icm2022.org> and (2) <https://icm2022.org/grants>
