

NCTS Interdisciplinary Distinguished Lectures on System Biology

Date: May 10, 2024

09:30–10:00	Registration
-------------	--------------

10:00–11:30 Lani Wu

Can mathematical thinking help us to identify patterns of cells that predict neurodegenerative diseases?

11:00–11:20	Tea Break
-------------	-----------

11:20–11:50 Labfront Demo/Lecture

11:50–12:30 Discussion and Conclusion for Lecture 1

12:30–14:00 **Lunch Break**

14:00–15:00 Steven Altschuler

Can mathematical thinking help us to understand how cells make (bad) decisions in neurodegenerative diseases?

15:00–15:20 Tea Break

15:20–16:20 Discussion and Conclusion for Lecture 2

17:30- Banquet (Invitation Only)
